

COVER LETTER FOR SUBMISSION OF A PAPER TO JOURNAL OF BIOENERGY AND FOOD SCIENCE

Gurupi, Tocantins, Brasil. 03/13/2017.

Dear Editor the Journal of Bioenergy and Food Science,

I wish to submit a new manuscript entitled "**Interaction genotype x environment for corn oil content in different fertilizing and Seasons**" for consideration. I confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere. In this paper.

The paper addresses the "**Interaction genotype x environment**" and is important because "**Through the levels of fertilization and sowing seasons resulted in differential behavior of the genotypes. The genotypes evaluation tests, carried out at different times under the same fertilization dose, provide similar results, which allows the substitution of one assay for the other, generating cost reduction**". The paper should be of interest to readers in the of area "**SciencesAgrarian**".

Briefly describe in three lines the research you are reporting in your paper, why it is important, and why you think the readership of the journal would be interested in it. Do not simply insert your abstract into your cover letter!
