Goiatuba, Goiás, Brasil
25/04/2016.

Dear Victor Hugo G. Sales
Editor the Journal of Bioenergy and Food Science

I / We wish to submit a new manuscript entitled “Lulo seedlings emergency (*Solanum quitoense* Lam) in storage time function” for consideration by the JOURNAL OF BIOENERGY AND FOOD SCIENCE.

I / We confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere.

In this paper, I / We report on “**The influence of storage time process of emergence of seeds lulo**”. This is significant because “**shortage of research with the seed matrix or no study to evaluate the seed of emergency storage time function**”.

The paper should be of interest to readers in the areas of agronomic and technology seeds.

This study aims to contribute to the diversification of crops in the southern state of Goiás – Brazil, and generate information about *Solanum quitoense*.

Please address all correspondence concerning this manuscript to me uiraagro@gmail.com

Thank you for your consideration of this manuscript.

Sincerely,

 , signature of main author
