

## COVER LETTER FOR SUBMISSION OF A PAPER TO JOURNAL OF BIOENERGY AND FOOD SCIENCE

Batna, Algeria . 08/08/2019.

Dear Editor the Journal of Bioenergy and Food Science,

I wish to submit a new manuscript entitled "Impacts of Different Drying Methods on Phenolic compounds and functional properties of Azaroles (*Crataegus azarolus* L.)" for consideration. I confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere. In this paper.

The paper addresses the "Although studies have focused on the drying kinetics of *Crataegus azarolus* L., the lack of published work on the effect of freeze-drying and microwave drying at levels power on phenolic compound and on functional properties (protein solubility, water and oil absorption capacity, emulsifying and foaming properties, density, viscosity and gelation) of Azaroles explains the interest for the present work." and is important because "• Effect of drying on the drying kinetic and quality of AZAROLLES was evaluated. • Functional properties were more stable during microwave grill drying at 450 Watt. • The microwave grill drying at 450 Watt of Russain olive fruit have potential use in food and pharma products.". The paper should be of interest to readers in the of area "drying food ;food science,preservation food.

Briefly describe in three lines the research you are reporting in your paper, why it is important, and why you think the readership of the journal would be interested in it. Do not simply insert your abstract into your cover letter!
