
COVER LETTER FOR SUBMISSION OF A PAPER TO JOURNAL OF BIOENERGY AND FOOD SCIENCE

Gurupi, Tocantins, Brasil. 08/13/2016.

Dear Editor the Journal of Bioenergy and Food Science,

I wish to submit a new manuscript entitled "**Resposta do capim Mombaça sob efeito de fontes e doses de fósforo na adubação de formação** [Response of grass Mombasa under the effect of sources and doses of phosphorus in the fertilization formation]" for consideration. I confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere. In this paper.

The paper addresses the "**Manejo da adubação fosfatada em pastagens no Cerrado** [Management of phosphate fertilizer on pastures in the Cerrado]" and is important because "**Trás informações sobre o efeito de fontes e doses de fósforo sobre a produção do capim Panicum maximum cv. Mombaça** [Back information on the effect of sources and doses of phosphorus on the production of grass Panicum maximum cv. Mombasa]". The paper should be of interest to readers in the of area "**AGRICULTURAL SCIENCES**".

A presente pesquisa trata do manejo da adubação em pastagem de capim Mombaça com o uso de fósforo no cerrado. É uma pesquisa importante pois permite verificar a importancia da adubação fosfatada para a produção dessa forrageira no Cerrado, assim como a definição da fonte e dose ideal para a maior produção, considerando os diferentes fertilizantes utilizados "[This research deals with the management of fertilization in pasture of Mombasa with the use of phosphorus in cerrado. It is an important research because it allows you to check the importance of phosphate fertilizer for the production of that forage in the Cerrado, as well as the definition of the source and optimal dose for most production, considering the different fertilizers used.]"
